EDUCATION

Master of Computer Applications; **CGPA:** 8.44	**Sept 2023 – June 2025**
A.P.J. Abdul Kalam Technical University	Lucknow, India
Bachelor of Science (HONORS) – Mathematics; **Percentage:** 74%	**July 2020 – July 2023**
M.J.P. Rohilkhand University	Bareilly, India

SKILLS SUMMARY

- **Programming Languages:**   JavaScript | Java (Basic)
- **Web Technologies:**   React | React Native | HTML | CSS | Bootstrap | Tailwind CSS
- **Tools/ Platforms:**   GitHub | Visual Studio Code | Netlify
- **Soft Skills:**   Problem Solving | Debugging | Adaptability | Team Collaboration

---

WORK EXPERIENCE

SALESFORCE VIRTUAL INTERNSHIP | [LINK]   **May 2025 – July 2025**

- Applied Salesforce fundamentals to build and customize applications, including CRM concepts, data models, and Lightning platform.
- Built and customized applications using Apex classes, triggers, validation rules, flows, and process automation.
- Developed a project — "WhatsNext Vision Motors", showcasing business process automation using Apex and Flows

WEB DEVELOPMENT INTERNSHIP | InternPe | [LINK]   **Sept 2024 – Oct 2024**

- Developed multiple responsive and interactive web applications using HTML, CSS and JavaScript.
- Practiced applying front-end fundamentals to design layouts, add interactivity, and ensure cross-device compatibility.
- Improved problem-solving and debugging skills through hands-on project tasks and real-time guidance.

PROJECTS

Clock Mobile App | React Native, Voice API | [GitHub LINK]   **July 2025 – Aug 2025**

- Built a multifunctional mobile app featuring Alarm, Stopwatch, Timer, and World Clock screens using React Native, ensuring smooth navigation and real-time functionality.
- Enabled voice control in Stopwatch for start, stop, pause, and reset via microphone input.
- Used AsyncStorage for data persistence and designed a clean, responsive UI with modular components.

Fund4Edu | React.js, Firebase | [Live Demo]   **March 2025 – May 2025**

- Developed an education funding platform for students to submit requests and track donation progress.
- Designed and implemented an admin dashboard to review, approve, or reject funding requests with reason tracking.
- Enhanced transparency and donor engagement through live progress indicators and visualized donation status.

Portfolio Website | React.js, Bootstrap | [Live Demo]   **Dec 2024 – Jan 2025**

- Created a responsive personal portfolio to showcase projects, technical skills, and contact information.
- Utilized React and Bootstrap to implement a modular design with smooth scrolling and navigation.
- Delivered a clean, professional interface that highlights personal branding and technical growth.
